

OBSERVING MENTAL HEALTH MONTH

Mental Health Awareness Month has been observed annually in May since 1949, raising awareness about mental illness and addressing the needs of those living with mental illness or disorders, including their families and systems of support. Each year Pasadena raises awareness about mental illness and mental health in an effort to educate the community, de-stigmatize mental illness, and to increase knowledge and access to quality mental health services and resources in the community. It seems particularly apt this year that we recognize the importance of mental health as we deal with uncertainty in our lives.

Prescription Drugs Misuse and Abuse

Do you know what to do with medication once it's expired? Are you aware of prescription drug trends among youth? Join us and you'll be entered in a prize drawing to win a gift card. *For teens and adults.* Presented by Day One. [Register here.](#)
